

NEWCOMER INSURANCE

Financial Reporting - Part Qualified Actuary

The Actuarial Valuations team is responsible for the production of quarterly financial reports on the company value and solvency position for group, regulatory and external purposes. This team collaborates with other areas of the business producing invaluable financial insights and analysis which is shared across various functions for business purposes. This role offers the opportunity to get involved in technical analysis and financial reporting as part of a supportive team.

Purpose of the Role

This is an excellent opportunity which offers the successful candidate the opportunity to become a part of the Actuarial Valuations team. The purpose of the role is to assist in the calculation and reporting of the company value and solvency position on a quarterly basis in order to meet financial reporting deadlines and to share expertise and knowledge across the business.

Key Accountabilities

- To assist in the calculation and reporting of the company value, solvency position, capital, shareholder and reinsurance positions of the company on a quarterly basis
- To assist in monthly profit reporting and management accounting
- Work as part of a team of part qualified and qualified actuaries, sharing expertise and knowledge across the business.
- Help the team continue to deliver exceptional service, while pursuing innovation and efficiency improvements and opportunities
- Lead experience investigation and analysis for lapses, expenses, mortality and morbidity for review and setting of best estimate assumptions
- Assist external auditor through their reviews to ensure sign off given within agreed time frame

What is the opportunity

The role is open to part qualified actuaries with strong analytical skills who would like the opportunity to play a significant role in the continued development of the financial reporting requirements of Newcomer Assurance.

The successful candidate will be involved in a variety of analytical and development work which will draw on their strong technical, analytical and communications skills.

The role reports to the Financial Reporting Manager.

Essential Qualifications

The role holder will be a recent graduate with a mathematical or actuarial background.

Essential Skills & Experience

- Excellent standard of Microsoft Excel is required
- Excellent communication, interpersonal skills and team working skills
- Ability to balance competing priorities while still achieving a high standard of work
- Technical expertise
- Ability to work off own initiative

Desirable

- Programming ability and actuarial modelling experience would be advantageous.
- Experience of Prophet Software would be advantageous
- An understanding of the external commercial and regulatory environment would be advantageous
- Life and pension product knowledge
- Strong planning and organising skills
- Strong cross-functional collaboration skills
- Influencing skills
