

Actuarial Reporting Analyst

About Athena

Athena is an insurance and reinsurance group fully focused on the European market. We focus on growing our franchise, via acquisition, transfer or reinsurance of portfolios from other insurers, and delivering a competitive long-term return to our customers. Our principal operational subsidiaries are Athena Lebensversicherung in Germany, Athena Ireland, Athena Belgium and Athena Life Re, a Bermuda-domiciled reinsurer. Athena has about 800 employees, 800,000 policyholders and total consolidated assets of approximately €15 billion. Our acquisition of Vivat in the Netherlands is subject to, amongst other conditions, regulatory approval. We have ambitious plans to grow our business across Europe and we are looking for likeminded people to join us on our journey.

Working at Athena

We offer a fast-paced, dynamic work environment where our actions define us, more than any words or promises. We innovate to keep our business at the forefront of the market. People are at the heart of what we do, and we always value that humanity. We do what we do as well as we can because we are about improving lives, inside and outside our business.

Executive Summary

Role Title:	Actuarial Reporting Analyst
Reporting to:	Actuarial Reporting Supervisor
Team:	Group Actuarial Reporting
Location:	Dublin, Ireland

Purpose of this role

The successful candidate will be a member of the Athena Group Actuarial Reporting team. The Group actuarial team provide valuation and reporting services to the Irish, German and Bermudan companies within the Athena Group. You will be involved with the production of financial and regulatory reporting for Solvency II, IFRS and Economic Balance Sheets. You will have an opportunity to learn about the macro economic factors affecting the valuation of our products as well as gaining valuable experience working with our actuarial cashflow projection model. You will also develop knowledge of different reporting requirements under SII, IFRS, EV etc.

Key Contribution Areas

- Calculate financial information on a monthly & quarterly basis and communicate to business stakeholders explaining material trends / anomalies
- Running the actuarial cashflow projection models to produce Solvency II and IFRS results
- Documenting the assumptions used at each quarter and ensuring they are correctly applied within the cashflow model
- Analysing and preparing the data used within the cashflow projection model
- Improving or updating reporting processes as required
- Produce results and draft report on required User Acceptance Testing in line with the calendar of model releases
- Support ad-hoc analysis & investigations as required
- Make a positive contribution to a growing and fast paced team

Personal Capabilities Required

- High levels of commitment and energy
- Analytical and problem-solving skills
- Strong work ethic and eagerness to learn
- Ability to work on own initiative and as part of a team
- Good interpersonal skills, with the ability to communicate effectively and clearly

Functional or Technical Knowledge and Skill Required

- Graduate actuarial analyst
- Previous experience working in a reporting role in a life assurance company an advantage
- Microsoft Office experience preferred (Excel, Word, PowerPoint)
